

Programme des sessions

2-4 oct. 2019

programme du workshop franco-ukrainien

Detectors - 2

IJCLab

jeu. 3 octobre

14:00

Detectors - 2: Detectors - 2

Session | Site: IJCLab

14:00 – 14:20 **ARICH detector**

Orateur

Leonid Burmistrov

14:20 – 14:40

Forward particle identification for future tau-charm factory - simulation of FTOF detector

Orateur

Larysa Golinka-Bezshyyko, Vladyslav Orlov, Vsevolod Yeroshenko

14:40 – 15:00

Development of CdZnTe gamma radiation dosimeter with energy-compensated sensitivity dependence

Orateur

M. Oleksii Pudov

15:00 – 15:20

Image reconstruction from optically coupled light sensitive receivers in multisensor hybrid X-ray flat panel detectors,

Orateur

Dmitry Nagornyy

15:20 – 15:40 **Small wheel detector**

Orateur

M. Philippe Schune

15:40 – 16:00

Design of front-illuminated detector module on the base of single-sided silicon photodiode array coupled to scintillators

Orateur

M. Sergii Kiprich

16:00

16:20

Detectors - 2: Detectors - 2

Session | Site: IJCLab

16:20 – 16:40 **ISMA scintillators for HEP projects**

Orateur

M. Andrey Boyarintsev

16:40 – 16:50 **Discussion**

16:50
