15:30 - 15:55

Overview of Run-2 results [Ana Elena Dumitriu (CPPM)]

15:55 - 16:15

Generic search for new resonances with inclusive Z boson events at high pT**Orateur**

kunlin han

16:15 - 16:35

Double charged Higgs [Hanlin Xu (CPPM)]

16:35 - 16:55

Search for new phenomena in low-mass diphoton final states with proton-proton collisions collected at $\sqrt{s}=13$ TeV with the ATLAS detector [Luis Pascual Dominguez (LPNHE)]

17:00

17:20 - 17:40

Search for stop RPV in multi-b-jet final state [Nghia Nguyen (CPPM)]

17:40 - 18:00

New resonance decaying into two photons at high masses [Hanlin XU (LPNHE)]

18:00 - 18:20

Search for squarks and gluinos in final states with jets and missing transverse energy with the ATLAS detector**Orateur**

christina agapopoulou

18:20 - 18:50

Prospectives for Run-3 [Marie-Helene Genest (LPSC)]

18:50
