

Programme des sessions

27-29 oct. 2021

**French-Ukrainian Workshop - Instrumentation
developments for High energy physics**

Detectors

IJCLab, Auditorium Joliot Curie + Auditorium Pierre Lehmann

ven. 29 octobre

08:45

Detectors: Detectors 2**Session** | **Site:** IJCLab, 200/0-Auditorium - Auditorium P. Lehmann | **Responsable de session:** Andrii Usachov

08:45 – 09:25

Liquido: novel liquid neutrino detection technology**Orateur**

Anatael CABRERA

09:30 – 09:45

ILC physics and IDT**Orateur**

Maksim Titov

09:50 – 10:05

PLUME project**Orateur**

Olivier Duarte

10:10 – 10:25

Study of neutron and gamma-ray irradiation effect on optical components for new luminometer of LHCb experiment**Orateurs**

V. A. Kushnir, Viktor Mytrochenko

10:30 – 10:45

CHANGE: path for new drift chambers**Orateur**

Gabriel CHARLES

10:45
